The thermal stability of commercial straight-run fuels
of kerosene type is mainly determined through charac-
ter and quantity of the non-hydrocarbon, resinous
compounds contained in them and representing the
basic source of high-temperature deposits. The hy-
drocarbon part of different commercial fuels has
practically an equal high temperature stability. The
dominant influence of non-hydrocarbon resinous com-
ponents on the thermal stability is observed also in

Cracked kerosene, which boils between 174 and 300°C and which contains a high percentage of unstable hydrocarbons (actual gums, 84.0%; iodine number, 58.5), can be converted into a diesel fuel (actual gums, 4) 4-50.0% iodine number, 5.5 - 6.9). The fuel meets the requirements of Soviet BTY-586-56 standards, except for its low flash point of 28°C (a minimum of 35°C is required). The flash point can be raised by distilling off the head fraction to 165°C (12% by weight).

Corrosion, Antioxidants.

Technology of production of a new oil-soluble corrosion
inhibitor - the nitrated oil - was developed. Composi-
tion of a new liquid protective lubricant NG-204 was
developed on the basis of nitrated oil; this composition
surpasses in efficiency analogous protective lubricants
and is prospective from standpoint of production
simplicity and raw-material availability. (Author)

PYROLYSIS OF THE BUTYLENE FRACTION IN THE PRESENCE OF OXYGEN. [1963] [8]p. 13 refs.
Order from OTS or SLA \$1.10 63-18887

Trans. of Khim[il]y i Tekhn[ologiya] Topliv i Masel (USSR) 1962, v. 7, no. 8, p. 1-6.

DESCRIPTORS: *Butenes, *Acetylenes, *Ethylenes, Pyrolysis, Oxygen, Reaction kinetics.

Commercial butylene fraction was pyrolyzed in the presence of oxygen at 1200 C under 60-120 mm Hg and at a gas residence time of 0.001 sec. in mixture with hydrogen. The process was investigated by the dynamic method, varying the oxygen content up to 38 vol. %. It was found that 8 to 10 vol. % oxygen sharply reduces the coke and resin yields in comparison to the thermal (Chemistry--Physical, TT, v. 10, no. 11) (over)
